Webinar Outline

- I. Joint Call Timeline
- II. Introduction to the Joint Call

II. Introduction to the Joint Call

Two ERA-NETs: SUSFOOD2 & FOSC

The two networks launched a Joint Call for transnational research proposals based on the funds from participating countries in both networks and additional international partners.

ERA-NET Cofund SUSFOOD2

SUSustainable FOOD production and consumption

The scope of SUSFOOD covers the entire food supply chain, with the main focus on food chain sustainability beyond the farm gate.

It covers processing, packaging, transport, retailing, food services, storage, and consumer activities.

26 partners from 15 European countries plus associated countries.

ERA-NET Cofund FOSC

Food Systems and Climate

The main challenge/aim of FOSC is to contribute to the achievement of food and nutrition security within the context of sustainable food systems, considering the three dimensions of sustainability (social, environmental, and economic).

27 partners from Europe, Africa, and Latin America.

II. Introduction to the Joint Call

Thematic background

- Food supply to an increasing population
- Depletion of natural resources, biodiversity loss & environmental impacts - climate change, deforestation and land degradation
- Food loss and waste
- System shocks

The need to increase the sustainability and resilience of our food systems

II. Introduction to the Joint Call

Definitions

Sustainability of food systems is defined as a food system that:

- Supports **food security**,
- Makes **optimal use of** natural and human **resources**, and respects **biodiversity and ecosystems** for present and future generations,
- Which is **culturally** acceptable and accessible, **environmentally** sound and **economically** fair and viable, and
- Provides the consumer with **nutritionally** adequate, **safe**, **healthy** and **affordable** food.

Resilience is defined as the ability to:

- Better **resist stresses** and **shocks** and the capacity of this entity to bounce back rapidly from the impact.
- It entails the **capability to cope with a shock**, when it occurs, but also to be prepared **to adapt** better to a new situation.

II. Introduction to the Joint Call

Scope of the Call

- Strengthening research and development on **innovative solutions** for **resilient**, **climate-smart** and **sustainable food systems**, with a focus on approaches to improve **resource efficiency** and enhance the capability of food systems to withstand severe physical and economic **shocks**.
- Attaining a **transition** from current linear food production systems, which are vulnerable to system shocks, **to resilient circular systems** that encompass efficiency, side-stream valorisation and avoidance of food loss and waste and consider interdependencies.
- A progress in the **organisation and management** of food systems and **novel technologies** key to support the food systems transformation.

II. Introduction to the Joint Call *Call Topics*

TOPIC 1

**Innovations to improve
food systems sustainability,
with a focus on increasing
resource efficiency and
reducing waste**

TOPIC 2

**Food systems adaptation and
resilience to system shocks**

**Please check the detailed topic description, national budgets and
funding modalities for the different topics!**

II. Introduction to the Joint Call

Cross-cutting themes

Multi-actor approach

**Different actors &
stakeholders**

Multi-disciplinary approach

**Various viewpoints &
research disciplines**

Systems approach

**Interconnections,
synergies & trade-offs**

Please consider the cross-cutting issues as well as good geographical coverage regarding the consortium composition and/or the content of a project proposal in order to strengthen the impact.

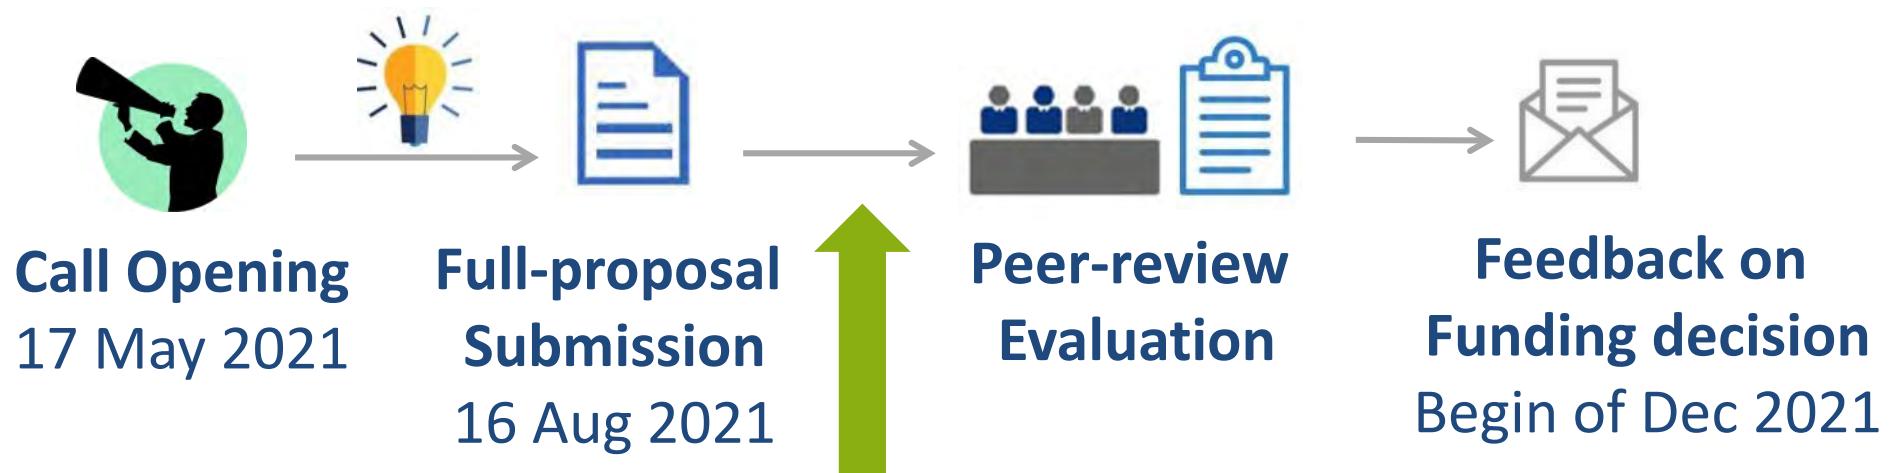

Webinar Outline

- I. Joint Call Timeline
- II. Introduction to the Joint Call
- III. Important conditions and requirements
(eligibility, participating countries and proposal outline)

III. Conditions and requirements

Eligibility

STEP 1

Eligibility check

The main content area is titled "WELCOME..." and contains the following text:

Welcome to the submission platform of the SF2-FOSC joint call for transnational research projects by SUSFOOD2 and FOSC. Applications for funding within this call can only be submitted through this platform.

If you want to register as a coordinator for a transnational research project, please read the CALL ANNOUNCEMENT thoroughly. It will ascertain that your planned project fits to the aim of this call. Please note that some topics may not be fundable by some funding organisations. Therefore, please take a close look at Annex B of the CALL ANNOUNCEMENT and on the national regulations stated in Annex D of the same document. You can download the CALL ANNOUNCEMENT from this page in the left corner below! It is strongly advised to contact your national contact point before submitting your project (Annex C of the CALL ANNOUNCEMENT).

Non-coordinating partners of a project will be invited by the respective coordinator to enter their profile data and get access to the automatically generated project fact sheet. For the invitation by the coordinator, the platform creates a password which is sent automatically by email to the partner and which allows access.

If you have questions or any technical problems with your login or the platform, please don't hesitate to contact the call office.

WELCOME!

YOU ARE LOGGED IN AS A COORDINATOR!

Please enter on the following pages the information about your proposal. If you are logged in without using the tool you will be logged out automatically after 24 minutes. In this case your last entered information will not get lost if you login once more by using the popup window which appears. Otherwise your last entered and not saved information will get lost!

After submitting your proposal you can re-enter and change it until the deadline. The older version of your proposal will be replaced by submitting a new one. Only the latest version will be saved within the database!

Please note for character number limitation of text fields: The character count of MS-WORD (or similar) cannot be translated directly into the character count of this HTML-based tool!

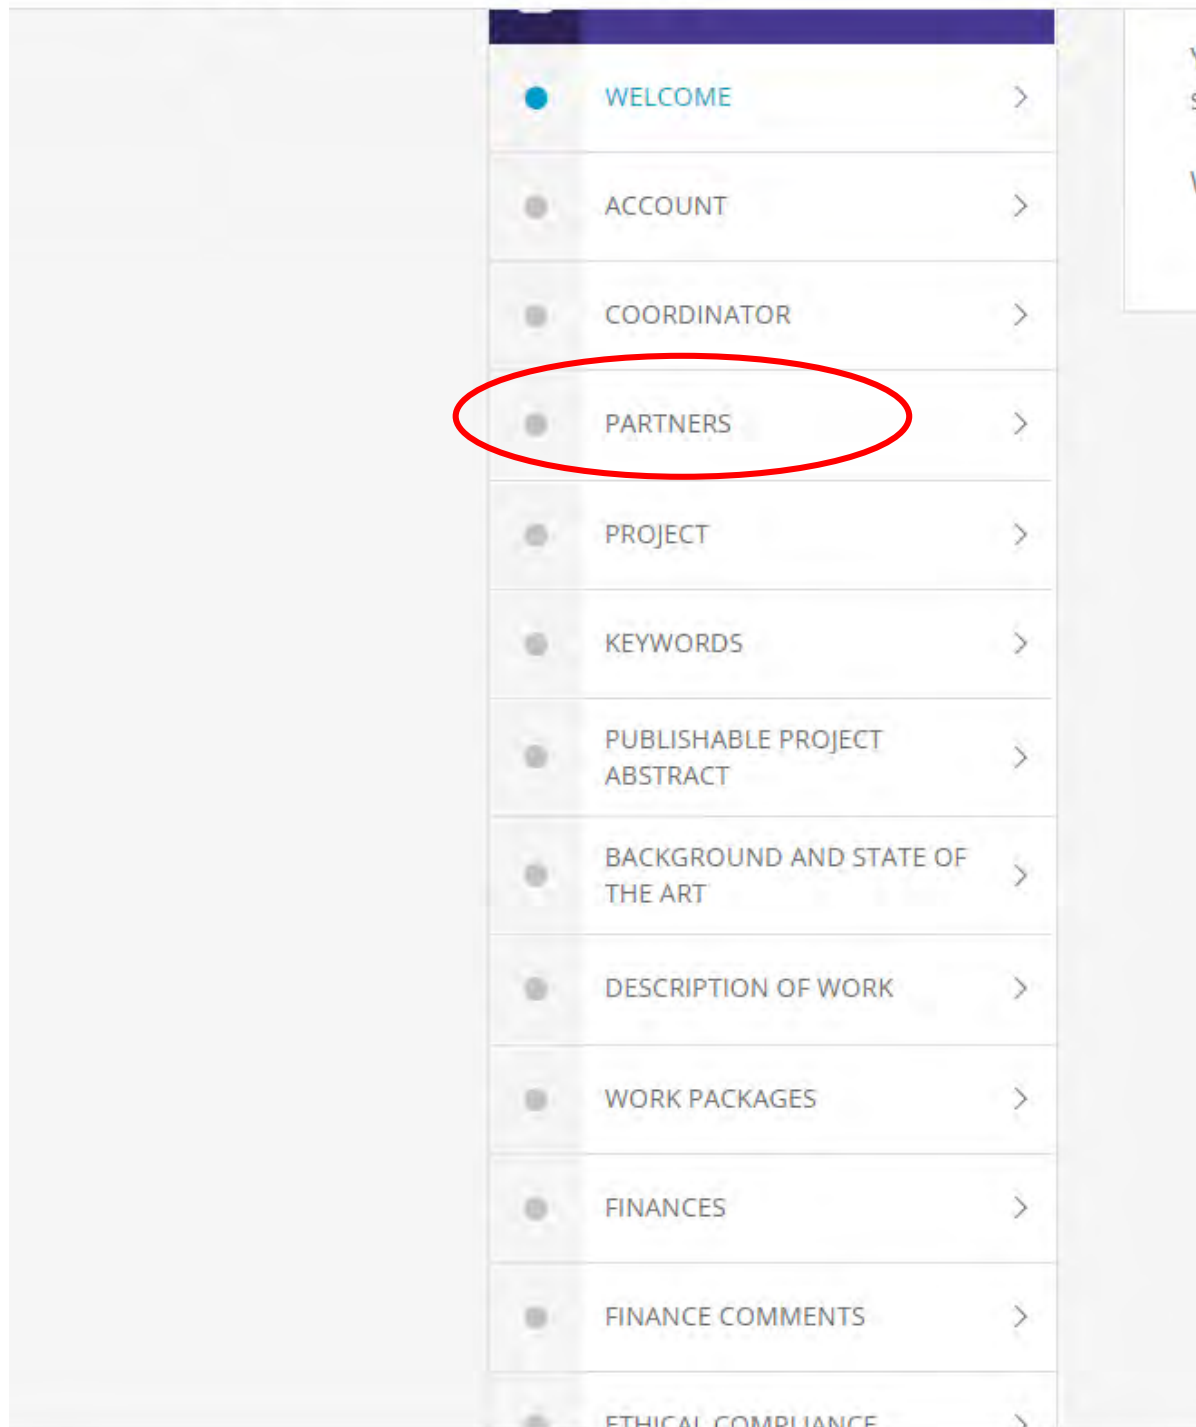

Proposals must be submitted electronically via the joint call online submission tool by the **16th of August 2021, 3 pm CEST**. You, as the project coordinator, should make sure to register and submit the proposal on time, as a strict call deadline is applied. After this deadline, the submission tool is closed.

You will be able to submit your data once all required information is provided. Please, don't wait until "the last minute" for your submission!

We wish you success for your application!

Does the project touch ethical issues? *

☒ yes

☐ no

You can select a maximum of 1 options.

Ethics is an integral part of research activities funded by the European Union within the H2020. Therefore, all proposals must describe ethical issues raised, and how they will be addressed so as to conform to national, European and international regulations. Guidance on ethics within H2020 is provided in the H2020 online manual (https://ec.europa.eu/research/participants/docs/h2020-funding-guide/cross-cutting-issues/ethics_en.htm) and a guideline for self-assessment can be found under http://ec.europa.eu/research/participants/data/ref/h2020/grants_manual/hi/ethics/h2020_hi_ethics-self-assess_en.pdf and applied for this call.

Proposals may be rejected from funding on ethics grounds if they do not comply with the European and national/regional legislation.

Max. 1000 characters

Please indicate that the project is carried out in accordance with the European Union's and respective national requirements on ethical issues. Please consult the Call Announcement for Information on Ethics assessment and criteria.
[max. 1,000 characters]

Communication, Dissemination and Exploitation Plan

COMMUNICATION, DISSEMINATION AND EXPLOITATION PLAN

A plan for communication, dissemination and exploitation of the results has to be provided in the proposals and is considered in the evaluation procedure. Please upload your plan as a pdf (max. 3 pages) here. Further info can be found in Annex E of the Call Announcement.

Literature References and Letter of Commitment

- Literature References: Can be given, up to 10, uploaded in a text field
- **Associated Partners:** Partners may participate in a project at their own expense (in-kind), if their contribution is important to achieve the project goals. Thereby associated partners can also come from countries not participating in the call or who would be ineligible for national/regional funding from the agencies participating in this call.
Please upload for each of these associated partners a letter of commitment. Compile all the required documents into one pdf (allowed file size: 5 MB, PDF file format).
For your convenience a **LoC-template** is provided (use of template is not mandatory).

Figures

- You have the opportunity to upload up to 5 images. To insert them, you enter the place marker "[[figureX]]" into your text (where the image should appear). By replacing the X with the number of the image you create the link to the image.

For example [[figure2]] for the 2nd image.

Max file size: 600px x 600px, 2MByte
Allowed formats are jpg, png or gif

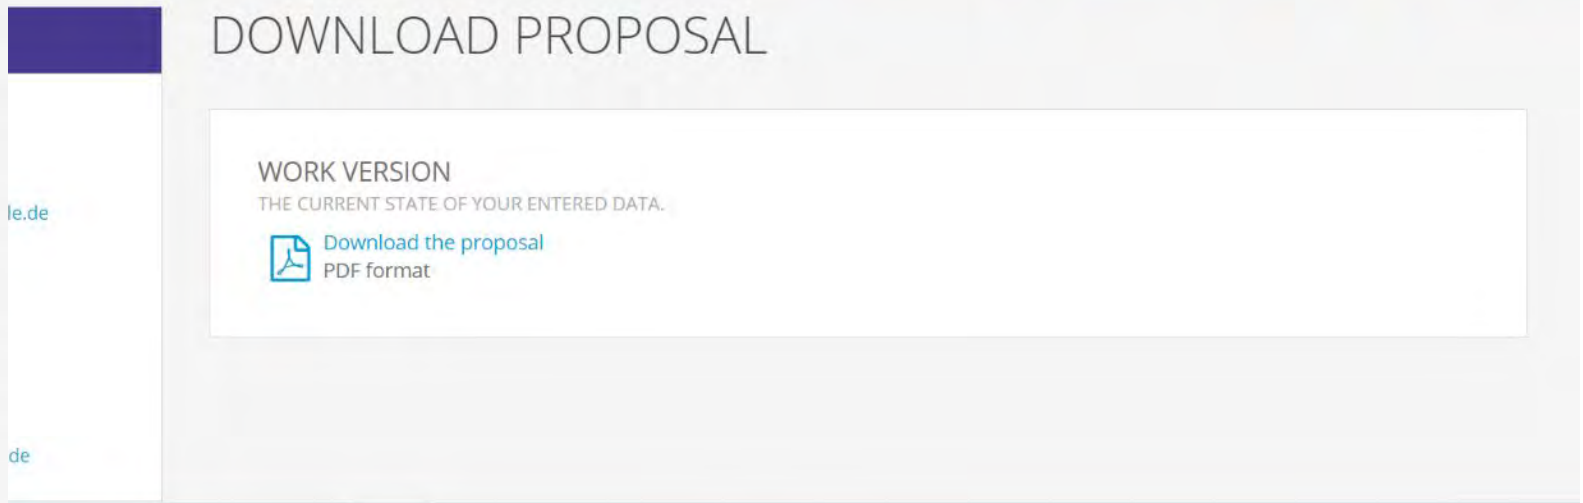

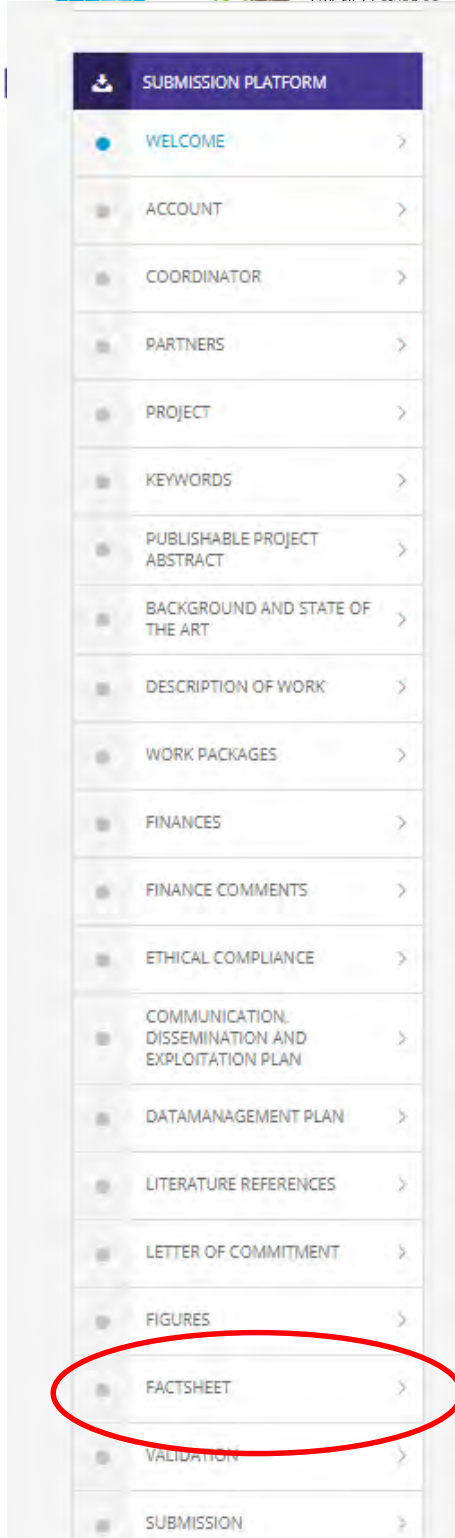

Example:

Description of work:

*Lorem ipsum dolor sit amet, consetetur sadipscing elitr, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua. At vero eos et accusam et justo duo dolores et ea rebum. **[[figure1]]** Stet clita kasd gubergren, (figure 1) no sea takimata sanctus est Lorem ipsum dolor sit amet. Lorem ipsum dolor sit amet, consetetur sadipscing elitr, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua. At vero eos et accusam et justo duo dolores et ea rebum. Stet clita kasd gubergren, no sea takimata sanctus est Lorem ipsum dolor sit amet.*

The term [[figure1]] tells the system to place the file uploaded in slot 1 of the figure menu exactly there. The term (figure 1) is no command and does nothing but just refer the reader to the first figure.

VI. Webinar Food Systems

Created by Kamin Ginkaew
from Noun Project

Food system

“Food systems comprise food production activities, processing and packaging, distribution and retail, as well as consumption. At the same time the diversity of food systems (local, high-tech, traditional, etc.) raise the need to find the right approach to increase their sustainability and resilience. Various factors, like environmental and socio-economic drivers, influence the systems and therefore, different approaches can affect the resilience and sustainability of such a complex network”

A Webinar will be offered in order to further explain our definition of “Food System” and explain how proposals could integrate system thinking in their proposal outline!

The Webinar will be announced at the homepages of SUSFOOD2 and FOSC and also here:

<https://www.submission-susfood-era.net/sf2-fosc-jointcall>

Please have a look at those pages regularly, the Webinar will most likely be carried out in June!
